Dress Code for Students in Clinical Attachment

Sparkle Therapy Centre expects all students to adopt the standards we set for conduct, dress and appearance. The way students dress sends messages about their professionalism and standards of care to service users, carers, colleagues and the members of the public.

As students learning within a practice environment, you are expected to follow this guidance at all times during your attachment here at Sparkle Therapy Centre.

Do's

1. Wear smart casual attire – Pants are recommended especially when working with younger children as you may need to move about and get up and down to the level of the children.
2. Female Muslim students are encouraged to wear tudung.
3. Light make-up is allowed.
4. It is recommended to tie your hair to the back and off the shoulder as children might grab your hair.
5. Keep your nails short and clean.

Don'ts

1. These clothing are inappropriate to wear throughout your attachment - denim jeans, short skirts, revealing tops.
2. No dangling earrings or necklaces allowed.
3. No long and/or fake nails.
4. Short, restricted skirts are not practical.
5. Any jewellerys are advised to be removed during session e.g. rings, bracelets.
